

CHEESE v4 — EV3 PORT MAP

EV3 BRICK	ULTRASONIC SENSOR (Left)	ULTRASONIC SENSOR (Right)	ULTRASONIC SENSOR (Front)	COLOR SENSOR
				
	S1	S2	S3	S4
MEDIUM MOTOR (Steering)	LARGE MOTOR (Drive)	ARDUINO NANO	HUSKYLENS	
				
A	B	(USB to EV3)	(PC to Arduino Nano)	

SENSOR, MOTORS AND, CAMERA PLACEMENT

SYSTEM INFORMATION

The EV3 Brick is the main controller of Cheese. It receives distance and floor data from the sensors and camera information from the Arduino Nano. Based on this data, the EV3 controls the steering and drive motors.

Inputs: S1-S3 Ultrasonic · S4 Color

Outputs: A Steering · B Drive

USB: Arduino Nano

Camera: HuskyLens → Nano → EV3
